

REDS & WHITES in THROUGH THE MUD & THE BLOOD

A set of game cards for Russian Civil War large skirmishes using the TooFatLardies' Mud & Blood rules.

This PDF should have a full set of cards as set out in the M&B rules, with enough for quite large battles without having to print duplicate copies.

This page and the next two should be enough for a basic game; the three pages after that contain cards for larger or more complex games. The final page has some blank cards for you to customise as required to fit your games.

These cards are nominally designed to be printed onto Letter-sized pre-punched business card sheets, as produced by Avery and other companies, but will work just fine printed onto ordinary card or just paper. They're also not size-sensitive, so printing them onto A4 card to cut out by hand should also work just fine.

This is version 1.0 of these cards, if you have any suggestions please contact me via www.warbard.ca/contact - feedback is always appreciated.
